Work: Front end and Back end

Url: tecrail.com

Sketchup - Tecnobit (Bassano del Grappa - ITA) - active

The official site of SketchUp on Italy

Work: Front end and Back end

Url: sketchupitalia.it

Responsive filemanager - personal - active

Responsive FileManager is a free open-source file manager made with jQuery, CSS3, PHP and HTML5 that offers a nice and elegant way to upload, manage and insert files, images and videos on server.

You can use it as external plugin for TinyMCE version 4.x. or as a stand-alone file manager.

The script automatically creates thumbnails of images for the preview list.

It can be configured for automatic resizing of uploaded images or to automatically limit the size.

You can personalize different configurations on each folder, set a subfolder as the root and change the configuration for each user, page or FileManager call. Is compatible with multi-user mode.

Work: I develop every part of this project.

Technologies Used: jQuery, AJAX, CSS3, HTML5, Bootstrap

Url: responsivefilemanager.com

Tilelook - Tecnobit (Bassano del Grappa - ITA) - active

Tilelook is a web social community for bathrooms and other tile designs, a place where people can share new designs, using your products. Sharing can seem a trivial element but we instead think it is the most important! It certainly has been missing in this business, but thanks to Tilelook, private

users, tile and bathroom furniture resellers/producers now have the opportunity to create their ideas, show them and learn from the comments they receive.

Work: I'm front end developer

Url: tilelook.com

Intesys Openway CRM - Intesys Openway (Verona - ITA) - active
